

FleetLink Logistics Network

Operating Review | Digital Freight & Last-Mile Marketplace

Period: Q4 2024

FleetLink operates a digital freight and last-mile logistics marketplace connecting shippers with a distributed network of carriers. Revenue is primarily transaction-based with additional fees from SaaS tools provided to larger accounts.

Network & Volume Metrics

Metric	Q4 2024
Completed Shipments	1.07M
Active Shippers	3,180
Active Carriers	7,210
On-Time Delivery Rate	94.6%
Average Take Rate	10.8%

Financial Summary

Metric	Q4 2024
Platform Revenue (recognized)	9.0M
Gross Margin	51%
Contribution Margin / Shipment	\$2.10
Marketing Spend as % of Revenue	18%
Support Tickets / 1,000 Shipments	15.8
Total Headcount	196

Platform Revenue of 9.0M in Q4 2024 was supported by growth in completed shipments quarter-over-quarter. Gross Margin of 51% reflects ongoing optimisation of carrier pricing incentives. Headcount of 196 at quarter-end was primarily in product and engineering; commercial hiring remained selective.

(1) On-Time Delivery Rate is carrier-reported with a 48-hour grace window per service agreement.

(2) Contribution Margin per Shipment is post-carrier-cost, pre-overhead allocation.

(3) Average Take Rate is computed on recognized GMV net of disputed transactions.

(4) Non-cash D&A;: 0.9M. No changes to credit facilities in the quarter.
