Portfolio Sector Mix – Q2 2025

Sector	Outstanding Balance	Share of Book
Services	\$120M	38%
Manufacturing	\$82M	26%
Retail	\$54M	17%
Hospitality	\$38M	12%
Other	\$22M	7%

Provision Coverage Ratio of 2.4x represents total loan loss reserves as a multiple of LTM net charge-offs. Management introduced this metric in Q2 2025 to provide additional visibility into reserve adequacy. The ratio is above the board-approved minimum of

2.0x.

Non-Core & One-Time Items

- Non-cash fair value adjustment on warrant portfolio: +\$0.6M
- One-time legal settlement expense accrual: (\$0.3M)
- Reported basic EPS for the period: \$0.11 (unaudited)

(1) Net Charge-off Rate is on a last-twelve-months (LTM) basis; equivalent to 'Credit Loss Rate' used in Q3–Q4 2024.

(2) Pre-Provision Operating Margin reinstated per updated board reporting policy; equivalent to 'Adjusted Operating Margin' in Q3 2024.

(3) Provision Coverage Ratio = total loan loss reserves / LTM net charge-offs; introduced Q2 2025.

(4) Gross Margin reflects interest income net of cost of funds; excludes provisions and operating expenses.
