Services	\$101M	37%
Manufacturing	\$68M	25%
Retail	\$50M	18%
Hospitality	\$36M	13%
Other	\$19M	7%

Adjusted Operating Margin of 31% in Q3 2024 reflects improved operating leverage as origination volumes grew without proportional headcount additions. The margin metric was relabelled from 'Pre-Provision Operating Margin' to align with internal management reporting conventions adopted in Q3.

-
- (1) *Adjusted Operating Margin* excludes loan loss provisions and non-recurring items; formerly 'Pre-Provision Operating Margin'.
- (2) *Net Charge-off Rate* is on a last-twelve-months (LTM) basis.
- (3) *Fee & Ancillary Income* includes origination fees, prepayment premiums, and treasury service charges.
