Senior Covenant Headroom	+118bps
Total Headcount	175

Portfolio Composition Commentary

Average loan size increased to \$78k in Q4 2024, up from an average of \$74k in Q3 2024, reflecting continued migration of the book toward larger working capital facilities in the Manufacturing and Services segments. Total gross outstanding balances reached \$291M at quarter end.

As of Q4 2024, the loan book remains diversified across sector exposures. The Services segment accounts for approximately 37% of outstanding balances (\$108M), followed by Manufacturing at 26% (\$74M), Retail at 18% (\$52M), Hospitality at 13% (\$37M), and all other sectors at 7% (\$20M). No sector concentration thresholds were breached during the period. Management elected not to present a formal sector mix table this quarter pending a refresh of the portfolio monitoring framework expected in Q1 2025.

(1) Credit Loss Rate replaces 'Net Charge-off Rate' terminology; calculated equivalently on a last-twelve-months basis.

(2) Adjusted Operating Margin is not reported this quarter; refer to Gross Margin and NIM for profitability.

(3) Gross Margin reflects net interest income net of cost of funds; excludes provisions and operating expenses.
