

MediSight Data Platform Inc.

Quarterly Operating Update | Clinical Data & Analytics Platform

Quarter ended March 31, 2025

MediSight operates a cloud-based clinical and operational data platform for hospital systems. Multi-year contracts are priced by data volume and facility count.

Key Metrics

Metric	Quarter ended Mar 31, 2025
Recognized Revenue	6.3M
Gross Margin	76%
Contracted Annual Recurring Revenue	26.1M
ARR Growth (YoY)	34%
ARR from Existing Accounts	85%
Avg. Remaining Contract Term	3.2 years

Operating Commentary

Recognized revenue in the three months ended March 31, 2025 totalled 6.3M, with Gross Margin of 76%. Contracted Annual Recurring Revenue grew to 26.1M, with 85% of ARR attributable to expansion within existing health systems. The company ended the period with 114 employees, up from 108 at December 31, 2024, with additions concentrated in implementation and customer success to support the new network onboarding.

One new hospital network was deployed during the period. Management noted continued progress in late-stage discussions with European hospital groups, though no probability-weighted pipeline data was provided.

Other Financial Information

- Capitalized development costs in the period: 0.5M.
- Second data centre region evaluation ongoing; no firm capital commitments.

(1) 'Contracted Annual Recurring Revenue' is equivalent to 'Contracted ARR' used in prior periods.

(2) Headcount of 114 is disclosed in commentary; not separately tabled this quarter.

(3) Gross Margin excludes implementation and customer success costs, reported as operating expenses.

(4) All figures are unaudited management estimates.
