

MediSight Data Platform Inc.

Quarterly Investor Snapshot | Clinical & Operational Data Platform

Period: Q2 2025

MediSight Data Platform Inc. ("MediSight") operates a cloud-based data platform for hospital systems, aggregating clinical, claims, and operational data.

Key Metrics – Q2 2025

Metric	Q2 2025
Recognized Revenue	6.8M
Gross Margin	77%
Contracted ARR (end of period)	27.9M
ARR Growth (YoY)	31%
Expansion ARR as % of Total ARR	87%
Total Headcount	121

Selected Operating Observations

- No material customer churn was observed during the quarter.
- During Q2 2025, MediSight continued deploying its platform across two new hospital networks, requiring incremental hiring in implementation and customer success.
- Several late-stage opportunities remain active with European hospital groups; management did not share probability-weighted pipeline figures.
- Management continues to target Gross Margin in the mid- to high-70s.

Other Financial Information

Capitalized development costs in Q2 2025 amounted to 0.5M. No material write-downs of previously capitalized software were recorded. Management is evaluating a second data centre region to support international expansion; no firm capital commitments have been made.

(1) Contracted ARR represents annualized value of signed, active contracts; excludes renewals under negotiation.

(2) Expansion ARR % is equivalent to 'ARR from Existing Accounts' metric used in prior quarters.

(3) Average remaining contract term is not reported this quarter; last disclosed as 3.2 years in Q1 2025.

(4) Gross Margin excludes implementation and customer success costs.
